I. **INTRODUCTION**

A. **PURPOSE:**

The purpose of this Request for Proposal is to obtain sealed proposals to establish Emergency Standby Material and Services, indefinite delivery contracts through competitive negotiations with qualified Vendors, which are intended to be activated in preparation for, or in response to, emergencies or disasters. The intent of any awarded contract is to provide additional commodity, material, and human resource assistance, as necessary, when not available through statewide contracts or other local means. **The Delaware Emergency Management Agency (DEMA), and the Delaware Emergency Operations Center, along with various other state and local agencies may require supplemental assistance to support and operate Commodity Points of Distribution sites (PODs), Community Shelters, and Emergency Worker Base Camps, as well as provide evacuation support and waste or debris management services.** This Request for Proposal includes seven (7) sections:

Section I: Requirements for food, equipment, materials, and human resources to establish and operate Points of Distribution sites (PODs) to support displaced people and animals. The requirements are based on supporting a daily population of 5,000; 10,000; and 20,000 per day. **[Pricing Tab 1]**

Section II: Requirements for Emergency Worker Base Camps – Type I-V and other Typed support packages. **[Pricing Tab 10]**

Section III: Shelter supplies and services, including medical equipment and supplies, food, and other requirements to support general population, people with non-acute medical needs, unattended children, and companion animal within designated community shelters. **[Pricing Tabs 2 - 5]**

Section IV: Transportation requirements to support evacuation of people and animals. **[Pricing Tab 6]**

Section V: Waste management requirements to remove and dispose of the various types of waste from PODs and Community Shelters. **[Pricing Tab 7]**

Section VI: Debris management requirements to remove and dispose of debris generated by an incident. **[Pricing Tab 8]**

Section VII: Other commodity, equipment, and human resources not listed in categories I through VI to support the various incidents listed in the Statement of Needs. Vendors are asked to list other resources not included in the Request for Proposal, with applicable pricing, they believe would be necessary to support the PODs; Community Shelters; Transportation and Evacuation; Waste Management; and Debris Management. **[Pricing Tab 9]**

It is the goal of this Request for Proposal to identify Vendors and execute contracts to implement Emergency Standby Material & Services as stated above, in the event that one or more State Agencies, counties, or municipalities require supplemental resources once local resources have been exhausted.

1. **COMPETITIVE SEALED PROPOSAL:**

It has been determined by the Director, Government Support Services, pursuant to **Delaware Code Title 29, Chapter 6924 (a)**, that this solicitation be offered as a request for competitive sealed proposals because the use of competitive sealed bidding is not in the best interest of the State.

The use of competitive sealed proposals is necessary to:

- Conduct oral or written discussions with Vendors concerning technical and price aspects of their proposals;
- Afford Vendors an opportunity to revise their proposals;
- Compare the different price, quality, and contractual factors of the proposals submitted.

2. **CONTRACT REQUIREMENTS:**

This contract will be issued to cover supplemental Emergency Standby Materials and Services requirements for the State of Delaware. Using agencies include the Department of Safety and Homeland Security, Delaware Emergency Management Agency; Department of Health and Social Services; Department of Services for Children, Youth and Their Families; Department of Agriculture; Department of Transportation; Delaware National Guard; and local agencies, having either direct or oversight responsibilities to ensure prompt and adequate response prior to, during, and after a natural, or man-made disaster or emergency. The scope of the incident could be local or statewide. Specifically, agencies must ensure the timely activation, operation, and management of evacuation operations; PODs, Community Shelters, and Emergency Worker Base Camps to ensure the displaced population receives food, water and other commodities necessary to mitigate the effects of an incident; and waste and debris management services. This contract will be accessible to any State Agency, School District, Political Subdivision, Volunteer Fire Company, or any authorized response entity in the State of Delaware that has a need, in compliance with that jurisdiction's purchasing requirements. The Using Jurisdiction is responsible for payment for services rendered.

3. **MANDATORY USE CONTRACT:**

REF: Title 29, Chapter 6911(d) Delaware Code. All Covered Agencies, as defined in 29 *Del. C.* §6902(6), will procure all material, equipment, and nonprofessional services through statewide contracts administered by Government Support Services, Office of Management and Budget. Delaware State University, Delaware Technical and Community College, school districts, and the Legislative Branch are specifically exempted from the requirements of this subchapter. In addition, the Delaware Transit Corporation is exempt from the entire procurement chapter. Pursuant to 29 *Del. C.* §6904 (l) and (n), respectively, the Department of Elections, and the Board of Pension Trustees have certain exemptions from the procurement chapter which may or may not apply to this Request for Proposals.

This is a contingency contract which will be used when other existing statewide contracts and resources cannot meet the State's needs, or local resources have been exhausted, or when expediency of response is critical to save lives and protect property, in response to local or statewide emergencies or disasters.

4. **MULTIPLE SOURCE AWARD:**

Government Support Services reserves the right to award this contract to more than one Vendor pursuant to 29 *Del.C.* §6926.

5. **CONTRACT PERIOD:**

The contract will be valid for a one (1) year period from October 15, 2009, and may be renewed for four (4) subsequent one-year periods through negotiation between the Vendors and the Office of Management and Budget, Government Support Services. Negotiation may be initiated no later than one-hundred eighty (180) days prior to the termination of the current contract period. Negotiation parameters are included in Section IV. EMERGENCY WORKER BASE CAMP & TYPED SUPPORT PACKAGE REQUIREMENTS

The nature and scope of a particular incident will determine the nature and scope of the response. Any response will require various materials, supplies, equipment, and human resources. The State of Florida has developed Emergency Worker Base Camp Packages that are now the national standard and provide the required resources and flexibility to support a particular incident. Other "Typed" support packages have also been developed to provide resources to fill anticipated needs during specific incidents and are listed in Appendix B, Tab 10.

The following pages provide the specifications, footprint, and layout for Type I through IV base camps. There is no footprint available for Type V-Mobile. However, requirements are listed in the following pages. Base camps are configured to support from 100 to 1,000 emergency workers or evacuees.

Vendors bidding all or part of Section II are asked to provide weekly or flat rate pricing for each emergency worker base camp configuration and other "Typed" support package requirements listed in **Appendix B, Tab 10**. If you are not bidding this section, please state "**NO BID**."

	<p>BASE CAMPS:</p> <p>Base camps are established as required in areas close in proximity to emergency impact areas. The purpose is to accommodate emergency workers responding to events in areas either where there are limited hotel/motel resources, or when occupying hotels/motels would not permit disaster victims from relocating from shelters into hotel/motels, thus extending the emergency shelter phase of the operation. Commercial contractors/vendors providing "turn-key" services will be considered the primary source of the establishment of base camps. For larger camps, Types can be combined at one site, such as a Type I and a Type II to build a 1,500 person camp.</p> <p>The Contractor should have an ability to construct the base camps and habilitate responders, recovery workers, military and relief agency workers with tents or modular units, provide air conditioning, heating, beds and/or cots, bedding, dinning halls, kitchens, medical unit, reefer trucks to haul food & Ice and store, 4 meals a day, shower units, hand wash units, potable (drinking) water, water purification and manifold distribution systems, toilets, on-site manifold distribution of black and grey water and associated On- Site Sanitation Systems, laundry service, leveled hardwood floors, industrial generators, diesel 4000 watt light towers, utility vehicles, tooling and equipment for plumbing, electrical, instrumentation, and other consumables including kitchen utensils,. Contractor shall also provide operations centers, recreation facilities and communication services to include telephone and wireless internet connectivity. The Contractor shall keep all of their assets mobile, staged with their own fleet of tractor-trailers, and shall be able to keep those assets available for rapid deployment if required by the Government.</p> <p>Detailed Scope of Work, specifications, terms, and conditions must be negotiated between the government entity and contractor.</p> <p>There are six levels of Base Camps:</p> <ul style="list-style-type: none"> • Type I support 1000 persons • Type II supports 750 persons • Type III supports 500 persons • Type IV supports 250 persons • Other: Mobile Life Support Trailers • Type V: 53' Self Contained Semi-Trailers • Type VI: 40' Motor Homes • 32' Travel Trailers <p style="text-align: center;">OVERVIEW of Services provided at a Base Camp includes:</p> <p>Staffing and Management:</p> <ul style="list-style-type: none"> • Camp construction is considered turn key, bare base, meaning that no on-site infrastructure is technically required to build the camp. Such conversion includes installation of dividing walls, partitions or curtains in order to allow for some privacy. • For larger operations hard-sided tents, long span structures or soft-sided tents or CONEX Systems can be used as billeting. Tent camps can take from 48-96 hours to set-up and must conform to normal wind loading of 45 MPH sustained, or 75 MPH in hurricane areas, based on previous events where storms crossing over the camp has done significant

DESIGNATED COMMUNITY SHELTER REQUIREMENTS

The Department of Health and Social Services; the American Red Cross; the Delaware National Guard; the Department of Services for Children, Youth and Their Families; the Department of Agriculture; and the Delaware and Kent County SPCAs all share responsibility in the operation and management of community shelters, in coordination with, and support from, other state and local agencies. Specifically:

- The Department of Health and Social Services-Division of Public Health and the Delaware National Guard provides sheltering services to any displaced evacuees with non-acute medical needs
- The Department of Services for Children, Youth, and Their Families provides sheltering and family reunification services to any unattended children
- The Department of Agriculture and the SPCAs provide shelter and pet reunification support for displaced companion animals

Delaware's "community shelter" concept provides for designated space within each shelter facility for each displaced population group listed above, as needed based on the circumstances of the incident. The concept also designates five (5) companion animal shelters, four (4) large animal shelters, and one (1) wildlife shelter, also listed in this RFP.

Vendors are asked to provide unit or tiered pricing or personnel rates for the items listed in **Appendix B, Tabs 2 through 5**, to support the four (4) populations housed in community shelters. If you are not bidding this section, please state "**NO BID.**"

APPENDIX A SCOPE OF WORK

SECTION IV

TRANSPORTATION SUPPORT REQUIREMENTS

During emergencies, the Delaware Department of Transportation (DelDOT) has overall responsibility for

- coordinating transportation to support the safe and timely evacuation of displaced human and animal populations to designated shelters
- executing the State's debris management plan
- supporting, if requested, the transportation of commodities and goods

During a catastrophic incident, DelDOT may require contractor assistance to augment its available resources. Anticipated needs may include:

- Buses of varying capacity, including buses with bathroom facilities if long-distance or long travel-duration evacuations are contemplated
- Handicap-accessible buses or vans
- Water buffaloes or water tankers
- Horse and livestock trailers
- Cargo vans
- Pick-up trucks
- Refrigerated trucks
- Non-refrigerated container trucks
- Dump trucks
- Four-wheel drive and all-terrain vehicles
- Heavy equipment for debris removal
- Bucket trucks
- Boats (to support water evacuations)
- Helicopters
- Appropriately licensed operators for all vehicle types

Vendors are asked to provide daily and weekly rental rates for the types of vehicles listed in **Appendix B, Tab 6**, along with hourly and overtime rates applicable for the each equipment item and vehicle operator. In addition, vehicles and equipment will require fuel to operate. **Appendix B, Tab 6** also asks Vendors to provide delivered pricing for these fuels. If you are not bidding this section, please state **"NO BID."**

**APPENDIX A
SCOPE OF WORK**

SECTION V

WASTE REMOVAL AND DISPOSAL SERVICES REQUIREMENTS

The operation of Commodity Points of Distribution (PODs), Community Shelters, and Emergency Worker Base Camps will generate substantial quantities of bio-medical, human, and animal waste, along with large amounts of garbage, trash, and recyclable materials. One or more of these waste categories could quickly create an unhealthy environment for those nearby populations, or those populations supported by PODs, Community Shelters, or Emergency Worker Base Camps. As a result, the State would require the regular removal and disposal of these waste products at one or more locations. Vendors are asked to submit as part of this section, their proposed plan that includes the necessary resources to remove and dispose of the various waste categories listed above. Vendors must meet all applicable state or local laws in effect at the time of the incident for retrieval, storage, and disposal of waste items. Your proposed plan must include the applicable pricing in **Appendix B, Tab 7**. If you are not bidding this section, please state **"NO BID."**

**APPENDIX A
SCOPE OF WORK**

SECTION VI

DEBRIS REMOVAL AND DISPOSITION REQUIREMENTS

The State may require contractor support to assist with the removal and disposition of various types of debris, including non-diseased animal carcasses, from main roadways and other locations. Additionally, the State may require contractor support to appropriately address hazardous materials issues, to include the appropriate and expedient containment, removal, storage, and disposition of hazardous waste, materials, or diseased animal carcasses. **Appendix B, Tab 8** lists the requirements for debris removal and disposition. Vendors are asked to provide pricing for the various items listed. If you are not bidding this section, please state **"NO BID."**

SCOPE OF WORK

SECTION VII

OTHER SUPPLIES, EQUIPMENT & HUMAN RESOURCE REQUIREMENTS

In this Section, Vendors are asked to list other equipment, supplies, or human resources they believe would aid in the response and support of incidents listed in the Statement of Needs that are not included in Sections I-VI, such as other heavy equipment not already listed.

The State also knows that communication capability is critical in response to any given incident. Vendors are asked to describe, as part of their proposal, available resources they can provide to support communications requirements.

Definitions

Minority and/or Women Business Enterprise

A Minority and Women Business Enterprise is a business that is at least 51 percent owned, controlled and actively managed by minority and/or women group members who are United States citizens or persons lawfully admitted to the United States for permanent residence.

The business must be a for-profit business and currently be performing a useful function.

Minorities – United States citizens or permanent residents who are African Americans, Asian/Pacific Americans, Hispanic Americans, Native Americans, Subcontinent Asian Americans, or as defined herein:

African (Black) Americans. All persons having origins from any of the Black groups of Africa and all persons having origins in any of the original peoples of the Cape Verde Islands.

Asian/Pacific Americans. All persons having origins from any of the original peoples of the Far East, Asia, or the Pacific Islands, including China, Japan, Korea, Samoa, Philippine Islands, and Hawaii. Guam, the U.S. Trust Territories of the Pacific or the Northern Marianas.

Hispanic Americans. Persons having origins from any of the Spanish-speaking peoples of México, Puerto Rico, Cuba, Central or South America, or the Caribbean Islands.

Native Americans. All persons having origins from the original peoples of North America and who are recognized as Native Americans by a tribe or tribal organization.

Subcontinent Asian Americans. All persons whose ancestors originated in India, Pakistan or Bangladesh.

Certification - A determination by the OMWBE that a for-profit business entity is a Minority Business Enterprise (MBE) and/or Women Business Enterprise (WBE).

Definitions

Ownership

The minority or woman ownership interest in the firm must be real, substantial and continuing and shall go beyond the pro forma ownership of the business as reflected in its ownership documents. The minority and women owners shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their ownership interest as demonstrated both by an examination of the substance and form of arrangements.

Control

Control will be exemplified by possession of the requisite knowledge and expertise to run the particular business. Control includes the authority to determine the direction of a business, including but not limited to capital investments and all other financial transactions; property acquisitions; day-to-day decisions; contract negotiations; legal matters; selection and hiring of officers, directors, and employees; operating responsibility; cost-control; income and dividend matters; and the rights of other shareholders or partners.

The minority and/or women owners must hold the highest officer position in their companies, example chief executive officer or president.

The minority and/or women must demonstrate that they possess the experience, expertise and knowledge to operate their particular types of business.

Expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the company is insufficient to demonstrate control. Women and/or minority owners must also verify that they hold any licenses or certification required by the type of business in which they are engaged.

Definitions

Minority Business Enterprise (MBE) - A for profit business in which at least 51% of the beneficial ownership interest and control are held by a minority or minorities. In the case of a corporation, minorities must hold at least 51% of voting interest.

Minority & Women Business Enterprise (MWBE) - A for-profit business in which at least 51% of beneficial interest and control is held by minority women or by an equal combination of minorities and women. In the case of a corporation, women and minorities must also hold at least 51% of voting interest.

Women Business Enterprise (WBE) - A for-profit business in which at least 51% of beneficial interest and control is held by women. In the case of a corporation, women must also hold at least 51% of the voting interest.

Useful Business Function

A useful business function is one, which results in the provision of materials, supplies, equipment or services to consumers in the State. A business acting as a conduit to transfer funds to a non-minority business does not constitute a useful business function unless doing so is a normal industry practice.

Benefits of Certification

Current certified minority and/or women owned firms are eligible to be listed in the State of Delaware Directory of Minority and Women Owned Businesses which is circulated to all state and local government agencies.

Recertification

At the ends of three years from original certification date, firms must submit the recertification affidavit to remain actively visible in the State of Delaware's Minority and/or Women Business Enterprise database.

No securities held in trust, or by a guardian for a minor, shall be considered as held by a minority or women in determining the ownership or control of a corporation.
- c) If the business operations do not reflect the ownership shown on paper.

- d) Firm is not a for-profit business
- e) Firm has provided false or misleading information
- f) Control will not be deemed to exist in cases of simple majority or absentee ownership, or when a non-minority/non-female owner or employee of the firm is disproportionately responsible for its operation.
- g) The firm shall not be subject to any formal or informal restrictions through, for example through, by-laws provisions, partnership agreements, or charter requirements for cumulative voting rights or otherwise that prevents the minority and women owners, without the cooperation or vote of any owner who is not a minority or women for making a business decision of the firm.
- h) If the owners of the firm who are not minorities or women are disproportionately responsible for the operation of the firm, then the firm is not controlled by minorities and shall not be considered as MWBE within the meaning of the definition.
